Learning Objectives

At the end of this program participants should be able to:

Advancements in the Treatment of Infectious Diarrhea – Pharmacy Interventions

- Identify causative organisms associated with infectious diarrhea.
- Recognize available agents utilized in the treatment of infectious diarrhea.
- Evaluate appropriateness of over-the-counter and prescription-only available agents in the treatment of infectious diarrhea.
- Create a patient-specific treatment plan for infectious diarrhea.

The Role of the Pharmacist in Risk Evaluation and Mitigation Strategies (REMS)

- Summarize the overall purpose and goals of REMS programs.
- List commonly prescribed drugs that require dispensing with a medication guide.
- Highlight recent developments in REMS programs, particularly for opioid agonists.
- Define the role of the pharmacist in REMS programs.
- Identify key components of pending legislation on Prescription Drug Diversion, Abuse and Addiction.

What is the Million Hearts Campaign?

- Recognize the goal of the Million Hearts Campaign.
- Explain the importance of increasing public awareness of how to lead a heart-healthy lifestyle.
- Counsel patients on the consistent use of high blood pressure and cholesterol medications.
- Demonstrate a commitment to smoking cessation training.

Standardized Prescription Labeling

- Recognize common errors patients make when trying to understand prescription labels.
- Identify sources of variability in pharmacy Interpretations of physician prescriptions.
- List counseling points that will help patients understand directions on prescription labels.
